PROFESSIONAL SUMMARY

Motivated and detail-oriented Computer Science & Engineering student with a strong interest in software development and web technologies. Skilled in Python, HTML, CSS, JavaScript, and SQL, with hands-on experience through academic and personal projects. Seeking an entry-level opportunity or internship where I can apply my technical knowledge, learn from experienced professionals, and contribute to real-world software projects.

CAREER OBJECTIVE

To obtain a challenging software development opportunity where I can apply my programming, problem-solving, and technical skills, contribute to practical projects, continuously learn emerging technologies, and grow as a professional software developer.

TECHNICAL SKILLS

Programming Languages: Python

Web Technologies: HTML5, CSS3, JavaScript

Database: SQL

Areas of Interest: Web Development, Software Development, Machine Learning

Other Skills: Responsive Web Design, Basic CRUD Operations, Debugging, Problem Solving, Teamwork, Adaptability, Quick Learning

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science & Engineering

Bansal Institute of Engineering and Technology, Lucknow

2023–2027 | Pursuing

Senior Secondary (Class XII)

Lokmanya Intermediate College

2022 | 61%

Secondary (Class X)

Don Basco Senior Secondary School

2020 | 61.4%

PROJECTS

Weather Forecast Application

- Developed a web-based application for displaying weather information.
- Used HTML, CSS, and JavaScript to build the interface and functionality.
- Focused on creating a simple, responsive, and user-friendly experience.

Flower Shop Management System

- Developed a management system for organizing flower-shop products and shop-related activities.
- Designed user- and admin-oriented functionality for a convenient shopping experience.
- Focused on keeping product and shop-management activities organized.

Land Sell Platform

- Developed a web-based platform concept for buying and selling land properties.
- Designed features for users to list and explore land-property details.
- Focused on a simple and user-friendly interface.

INTERNSHIP & TRAINING

Internship – Full Stack Development using MERN

Duration: 9 September 2025 to 29 November 2025

Technical Training

Completed web development training and learned fundamental frontend and backend development concepts.

CERTIFICATIONS

- Certificate of achievement for participation in a 7-day AI class conducted by Angel Foundation.
- Certificate of training for completing a 45-hour Full Stack Development training programme at Codegrip, Lucknow.
- Python certification.
- Machine Learning certification.

ACHIEVEMENTS

- Successfully developed and completed academic and personal web development projects.

POSITIONS OF RESPONSIBILITY

- Participated actively in college technical-skills and academic activities.
- Worked as a team member during project development.

CORE STRENGTHS

Problem Solving • Quick Learner • Teamwork • Adaptability • Willingness to Learn New Technologies

ADDITIONAL INFORMATION

Career Level: Fresher / Student

Availability: Open to Internship and Entry-Level Opportunities

Preferred Areas: Software Development, Web Development, Python Development
